

QUALITY POLICY

Atlantis Marine has adopted the principle of providing reliable and trouble-free service to its customers with its experienced management and technical staff using advanced technology and modern engineering solutions in its projects and applications for ship building, ship repair, maintenance and repair services.

Our team spirit adopted staff who works with devotion is the foundation of our quality. Our rigorous work and service we offer are the assurance of our continuous quality.

Our Quality Policy is to accept customer satisfaction as the first target by applying continuous improvement and curing in all units, to fulfill the requirements of ISO 9001:2015 Quality Management System Standards and to continuously improve its effectiveness.
